

Hope Buttress

1. Peanut Butter Crunchy (21)

Start 15m left of start of the grey open book on *Butterfinger Crisp*

Pitch 1. 30m (18) From a boulder, pull onto the face and up to a tiny platform. Head straight up a system of vertical cracks and small corners to the huge ledge. Walk 15m right.

Pitch 2. 25m (21) Just right of a huge boulder, pull up into a very wide crack that almost forms a corner that arches up and left. Step left onto a face and up and to a small tree. Pull up past the tree and up the steep layback above. Move 5m right to a belay.

Pitch 3. 30m (17) Climb a few meters up a fin at the base of a grey corner. Step left on the face and head diagonally up and left to a narrow corner (with a fused seam). Follow this to a ledge and belay 5m right of some abseil tat.

Pitch 4. 20m (16) Head up an orange ramp tending right to steep wall of chicken heads. Follow this straight up to the top. This is likely the same finish as *Butterfinger Crisp*.

FA: A. Gietl & R. Halsey (Sept 2013)

Courage Valley, Castle

This area is to the right of Hope Buttress as viewed from De Pakhuis.

The Castle

1. Citadel (20)

Pitch 1. 30m (20) Follow good holds just right of the small corner in the centre of the wall. Continue straight up through a steep section and then the face above to a roof. Rail left and mantle onto a ledge, then up to the next ledge and walk left to below the crack through the bulge.

Pitch 2. 25m (20) Climb the crack and then straight up to a ledge. Continue up the exposed face above. Scramble over the back down to the lower ledge to find the rap point above Sky Tower.

FA: S. Nightingale & R. Halsey (June 2018)

2. Sky Tower (24)

Pitch 1. 45m (22) Start from a large boulder at the right side of the wall. Follow a series of narrow corners and fins to the roof which is passed on the right. Continue past another roof on the right and up to the ledge.

Pitch 2. 20m (24) Climb straight up centre of dark red wall, following a series of horizontal rails. At two-thirds height there is a tricky, committing sequence (micro cams useful) to go straight up to the top. Bailing right will be easier and safer, but less cool.

FA: R. Halsey & A. Gietl (Sept 2013)

3. One Life Stand (22/23)

Aesthetic face climbing.

Pitch 1. 20m (22/23) A slightly committing start onto the face leads to the intermittent vertical crack in the middle of the wall. Follow the crack and where it peeters out continue straight up the orange rock (crux) to a wide rail. Move slightly right and up grey rock to finish.

FA: R. Halsey (Aug 2015)

Unnamed (18?)

Starts to the right of OLS and takes the easiest way into to the narrow corner and up to the bush ledge.

FA: A. Bester (Aug 2015)

Courage Valley, The Fort

The Fort is a little way to the right of The Castle

The Fort

1. Devil's Chimney (22)

Pitch 1. 10m (15) Scramble up into the sandy section and then up the wide crack on the right hand wall to reach a ledge below the crack.

Pitch 2. 25m (22) Climb into the crack (some sandy sections) and follow it all the way to the top.

FA: S. Nightingale & R. Halsey (June 2018)

2. Avolicious (19)

Pitch 1. 40m (19) Follow a series of layback holds between horizontal breaks to gain a dark brown triangular recess. Move up this and exit up and right onto the face. Head straight up and slightly left to the top.

FA: R. Halsey & S. Nightingale (June 2018)

3. Cloudy Wall (16)

Pitch 1. 40m (16) Move easily up and right to reach a hand crack through a small bulge. Pull through and then right to follow the easiest line up to a narrow roof up high which is passed on the left. Straight to top.

FA: S. Nightingale & R. Halsey (June 2018)
